Some amazing news
*subheading*

Some Company
Some Department
Some City, 10th September 2014

This is an example press release. Keep it short and use the third person. Avoid the use of exclamation marks and all-caps. Put all the pertinent details in the first paragraph. Answer who, what, when, where and why.

Use short paragraphs. Try not to exceed 500 words. Keep to the point and avoid jargon. This example has loaded the pressrelease-symbols package (via the symbols class option) to use symbols (from the marvosym package and one designed using tikz) instead of text. The image is from the mwe package. The header layout has been changed using:

```
\PRset{releasealign=right,ruled=false,logo=below right,smashlogo}
```

About Some Company

Some Company was set up in imaginary year i.
